## USEFUL INFORMATION

**In the square, before departure, all engines must remain off to limit the polluting effect.**

Participants will be offered two routes on a bilingual Italian/English road book

**TOURIST:**

designed on the white sheets of the road book, without particular difficulties and suitable for all standard 4×4 off-road vehicles and sport utility vehicles.

**DEMANDING:**

drawn on the yellow sheets of the road book, indicated for all standard 4×4 off-road vehicles and not recommended for sport utility vehicles.

(The demanding off-road sections, for safety and organizational reasons, will be open at a certain time beyond which assistance will not be guaranteed.)

**Participants are required to maintain a type of driving appropriate to the circumstances of the time and place.**

Refreshment stops are planned.

The participant will be able to decide personally and independently on the practicability and safety of the routes indicated in the road book; the **organization does not impose any obligation**, the driver will be the person responsible, in every aspect, for the crew and the vehicle.

**Only the routes indicated in the road book are authorized for transit**, exceptionally and only for

event participants. There are no set travel times to complete the routes.

The paths, accessible to all 4x4s, are widened in the narrowest paths, cleaned of branches and brambles in order to avoid scratches and damage to the bodywork.

Based on the authorizations issued, **vehicles over 35 q., quads and tracked vehicles are not admitted to the rally.**

It is not mandatory **but the presence of a tow rope on board is recommended**. It is **advisable to anchor the license plates well**.

The **sticker** with the participation number must be displayed on the **left side** of the vehicle
